**Products & Services**

# Value. Speed. Durability. Connectivity.

## Crisp, Accurate Bar Codes at Full Speed!

When you need a high performance bar code printer that's durable, reliable and easily integrated on-line, Monarch has the solution - The Monarch 9855 Tabletop Bar Code Printer!

## Full Range of Connectivity.

Stay connected with leading edge technology. Standard connectivity includes serial, parallel, and USB (Universal Serial Bus) ports. You can upgrade to enhanced MonarchNet2 Ethernet Print Server or twinax/coax functions.

With MonarchNet2, you control all of your Monarch 9855 and 9860 printers, anywhere in the world, from a central location.

MonarchNet2 also supports our new Dual Wireless 802.11b and Wired Ethernet network interface card. This capability allows your printers to run in a wireless network, but allows you to instantly change - **with no software adjustments and no loss of session** -- to a wired connection if your wireless network becomes overloaded.

## Companion Products Available for the Monarch 9855 Tabletop Bar Code Printer

Monarch® 926™ Knife

## Make Sure You Get The Scanning Results You Want....Everytime!

The Monarch 9855 can make sure you get the bar code (and the scanning results) you want...Everytime! Here's how:

Monarch's unique ribbon control protects against "ribbon wrinkle".

"Fail Safe Dot Shifting" automatically corrects for "bad dots".

The "Gray Box Alert" prints a gray box in place of a bad bar code when dot shifting can't fix the problem.

Our state-of-the-art Monarch 938 verifier provides added assurance.

The overstrike print alerts you right away when a label has a barcode that is not scannable.
